## Multidisciplinary Evidence-Based Approaches to Problematic Sexual Behavior in Children

[OneOp.org/learn/160125/](https://OneOp.org/learn/160125/)

This 90-minute webinar is focused on increasing the knowledge base around problematic sexual behavior in children for all multidisciplinary team members. Focus is placed on the continuum of sexual behaviors, dispelling myths about children with problematic sexual behavior, and instilling hope in treating this population.

Participants will gain a deeper understanding of approaches in encouraging appropriate next steps for treatment and safety planning with families. Evidence-based strategies regarding family engagement in treatment are incorporated throughout the webinar.
